

The DISCOVERY & PHOTO WALKS and Personalised Photoshoots

Summer & Fall 2020

My photo walks are constantly evolving with the times. I introduced the Discovery Walks in 2011 to show world-travelers and photo-buffs a new way of seeing Chamonix with more than 20 different itineraries to choose from. At first people came with their cameras. Now people come with their smartphones for immediate social network communication. To add to that experience, I am offering a **free mini-photoshoot** on all my Discovery Walks where I'll be photographing you with your own smartphone.

GET IN THE PICTURE !

For those people looking for a longer-lasting memory of their own personal and private events while in Chamonix, I am proposing Personalized Photoshoots to capture you, your friends & family while living the moment ; genuine marriage proposals, family reunions, stolen moments with special loved-ones, touching moments with your pets... or simply a true-to-life capture of how you want to remember your experience in Chamonix. Nothing staged for these shoots.

Genuine emotions for you to save and share.

A RENAISSANCE WALK IN ONE OF CHAMONIX'S MOST PRISTINE ENVIRONNEMENTS

Through contact with the healing powers of nature, now is an opportunity for reflection on how to evolve in our world's fragile environments. Originally designed for nature photographers, Teresa Kaufman hosts this walk for all visitors who can appreciate the music of bird songs, the discovery of rare flowers and the subtle odours of fields of wild grass while drawing energy from one of the valley's most enchanting natural environments. In order to respect the safe measures of social distancing, this Discovery and Photo Walk will be proposed on a private One to One basis for individual solo travelers, couples or very small families. It will take place in the late afternoon in an isolated neighborhood on the territory of Les Houches. The unique environment for this walk is especially healing due to its magnetic - and positive energy. The consoling and warm late-afternoon light and soothing silence adds to the sense of well-being.

Duration : approximately 3 hours.

Price : 60 € per person with a minimum of 2 persons. 120€ for one person.

A maximum of 4 persons on a walk. A reduced price will be offered for young children.

THE RENAISSANCE WALK – COUPEAU, LES HOUCHES. RECONNECTING TO MOTHER NATURE

Perhaps the most impressive view of the Mont Blanc range is to be seen from this alpine plateau. You'll discover ancient wood chalets in a luminous birch and larch forest as well as a well-kept secret location for some of the more rare alpine flowers to be found in the valley. Especially interesting for the macro-photographer. Inspiring for young and budding naturalists too.

CHAMONIX – THE CLASSIC TOWN & COUNTRY WALK – ALL SEASONS A JOY

Discover downtown Chamonix followed by hill-top neighborhood to enjoy the view, the sun, some of the most beautiful gardens along with a fresh-water spring. We'll follow the season as the flowers and vegetables grow, bloom and change colours.

SERVOZ – GARDENS IN BLOOM IN A VILLAGE OF FARMS, RED COWS & A BAROQUE CHURCH

A village where pear and apple orchards grow and blossom (excellent cider too !) and where farmers, artists and top-notch chefs have chosen to live and maintain a quality-of-life environnement. Servoz is famous for it's stone fountains, rural architecture and red cows. It might just be Chamonix's best kept secret. We'll meet up with Xavier while he milks his cows.

TRÉLECHAMPS – A MOUNTAIN HAMLET NESTLED AMONGST FORESTS AND GLACIERS

A story-book setting on an isolated plateau surrounded by glaciers ; alpine chalets, a traditional mountain hut and a micro-climate producing remarkable gardens. We'll cross paths with the hikers and bikers on the famous Mont Blanc Trail.

VALLORCINE – A UNIQUE WALSER VILLAGE – MOUNTAIN LIFE-STYLE & OLD-WORLD TRADITIONS

At the north end of the valley lies one of the most unique villages in the Alpes. We'll visit the heart of the Walser hamlets by following the grass-covered path that links them together. Wild flowers, heritage cows and authentic traditions still make up the staff of life of this rugged mountain environment.

CHAROUSSE, LES HOUCHES – A STEP BACK IN TIME TO A 19th CENTURY ALPINE PASTURE

This well-hidden spot is suspended in time and carefully maintained by it's inhabitants. We'll get there by walking up an old cow path in the woods before arriving to the original chalets, dominated by the majestic Mont Blanc range.
